Claim Sequence: Linking	Point of View: 3	Tense: Present
----------------------------	---------------------	-------------------

Introductory Option:

Statistics

Introductory Details:

- ① Popular & inexpensive: \$40 on up  
③ Under \$1 billion 2004; \$3 billion by 2024  
② 327 types in 2013; 30,000 by 2020

**CLAIMS**

- ① Yes, they should be  
② No, they should not be

**ISSUE**

Should Drone owners be licensed?

Concluding Option:

Concluding Details:

Recommendations

FAA regulations

② Required practice

① Demonstrate skills

④ Penalties needed

③ Build in safety controls

**THESIS STATEMENT DRAFT:**

Nevertheless, because drones are a danger to humans, can be destructive and invasive, and are tricky to fly, people should be licensed to use them, and other regulations and restrictions should be followed as well.
