

Another reason why artificial turf should be used in home lawns is that it is safe. Because the turf is all the same length, it creates a very even surface. It is easy to run and walk on. Further, as long as the ground is leveled before the turf is installed, there should be no dips or breaks in it. Moreover, because it is artificial, there are no rocks in it. There is nothing that would cause a person to trip. Finally, because artificial turf is not alive, it does not create pollens. People who are allergic to grass pollens will not suffer as much from Hayfever and asthma if their homes are surrounded by artificial grass.

A final reason why artificial grass should be used in home lawns is that it is very attractive and clean. Not surprisingly, it is very pleasant looking because the green color is uniform throughout it. People who like a clean-looking environment will enjoy its appearance. Because it covers the ground, artificial turf never has mud or dirt associated with it. People who walk over it will not get mud or dirt on their shoes that they can track into their homes. Additionally, artificial turf does not change with the seasons. It does not turn brown in the winter; it is always a pleasant green color. In fact, artificial turf sparkles a bit in the sunshine. It always has a “dressed up” appearance.

To conclude, artificial turf should be purchased for lawns because it can improve the lives of homeowners in several ways. First, homeowners will save time and effort because they will not Persuasive/Argumentative Writing Cue Card #19d, page 4 need to take care of it. They will save money because they will not have to buy water, sprinklers, fertilizer, weed killer, and lawn mowers. Second, they will
